

Jacky Owen

I'd like to thank everyone for voting for me and being the assistant branch secretary for the year.

I have dealt with some numerous cases this year ranging from stage 2 and 3 sicknesses, appeals and obviously investigations under the sexual culture. Some of them just plain disciplinary not under the sexual culture and various other investigations I've assisted Clare in various things as well which I suspect she will have her report to you. I'm at this very moment in Egypt but I went over on my Foot last night so I'm incapacitated and in a wheelchair hoping that it'll clear up and I can then get in the Sun and the swimming pool before I come back . It's extremely painful, hoping I haven't broken anything.

I am also Contact for some members who are in AVP from Cornwall to Dorchester to Exeter and I will be able to tell the branch management meeting a bit more about that when I get back and I'm aware that there's some changes going on there which I hope will help the members in AVP,

It's difficult to be honest to try to remember everything I've done and I'm not one for blowing my own trumpet either . I just get on and do the job and hopefully it will change a little bit because I'll be full-time unison and not part-time which means I'll be there Monday to Friday or Saturday and Sunday I don't mind so yeah it is quite difficult trying to formulate this email at the moment especially with the pain relief I'm on but I just wanted to send something to you.
